Subject Index

Volume 14 (1975)

Animals:

- Bat: 34
- Carollia brevicauda*: 34
- C. castanea*: 34
- Chicken: 63
- Choeroniscus intermedius*: 34
- C. perspicillata*: 34
- Gallus domesticus*: 63
- Macaca fascicularis*: 26
- M. mulatta*: 26
- Monkey: 26
- Mouse: 1, 42, 116
- Mus dunni*: 116
- M. fulvidiventris*: 116
- M. musculus*: 1, 42, 116
- Rat, bandicoot: 140
- Nesokia indica*: 140

C banding of *Mus dunni* and *M. fulvidiventris*: 116

— — pattern homology in the bat genera *Carollia* and *Choeroniscus*: 34

Chromosomal variations, Q and C, human: 97

Chromosome aberrations, radiation-induced, in mouse spermatocytes and oocytes: 1

Chromosomes and DNA of *Mus*: 116

DNA methylation, X inactivation, and differentiation: 9

G banding of *Mus dunni* and *M. fulvidiventris*: 116

— — pattern homology in the bat genera *Carollia* and *Choeroniscus*: 34

— — patterns, identical, of two *Macaca* species: 26

Heteroploidy in chick embryos from intraline and interline matings: 63

Late replication of the inactive X chromosome: 140

Meiotic exchange in a human male with a pericentric inversion of chromosome 4: 126

Pericentric inversion of chromosome 4, meiotic exchange in a: 126

Q and C chromosomal variations, human: 97

— banding of *Mus dunni* and *M. fulvidiventr*: 116

Radiation-induced chromosome aberrations in mouse spermatocytes and oocytes: 1
ROTTERDAM CONFERENCE (1974): see pages 163–169 for detailed contents

Trisomy in the mouse: 42

X chromosome, inactive, late replication of: 140

— inactivation, differentiation, and DNA methylation: 9

Human Genetic Mutant Cell Repository Index

Volume 14 (1975)

- A (1;2) translocation, balanced, 46 chromosomes (GM-257): 154
- A (1;15) translocation, balanced, 46 chromosomes (GM-126): 84
- A (1;17) translocation, balanced, plus trisomy 21, 47 chromosomes (GM-201): 82
- A (4;11) translocation, balanced, 46 chromosomes (GM-380): 150
- A (4;11) translocation, balanced, XXXXp-Y, 49 chromosomes (GM-157): 76
- A (4;21) translocation, unbalanced, 46 chromosomes (GM-98): 152
- A (7;10) translocation, balanced, 46 chromosomes (GM-44): 86
- An (8;12) translocation, balanced, 46 chromosomes (GM-213): 78
- A (10;17) translocation, balanced, 46 chromosomes (GM-216): 88
- A (10;17) translocation, unbalanced, 46 chromosomes (GM-217): 90
- A (17;19) translocation, balanced, 46 chromosomes (GM-271): 92
- A (17;22) translocation, balanced, 46 chromosomes (GM-119): 80

Subject Index

Volume 15 (1975)

Aging, research in, somatic cell genetics resource for: 30

Animals:

- Akodon arviculoides*: 388
- Binturong: 306
- Bos taurus*: 332
- Cacomistle: 306
- Cat: 306
- Cattle: 332
- Chicken: 138
- Civet: 306
- Cricetulus griseus*: 372
- Dog: 380
- Fanaloka: 306
- Frog: 186
- Gallus domesticus*: 138
- Genet: 306
- Gibbon: 81, 92
- Hamster, Chinese: 372
- Hyla chrysoscelis*: 186
- H. versicolor*: 186
- Hylobates concolor*: 81
- H. lar*: 81, 92
- H. moloch*: 92
- Jaguar: 306
- Leopard: 306
- Linsang: 306
- Mongoose: 306
- Mouse: 1, 166, 256, 276
- Muntiacus muntjac*: 153
- Muntjac: 153
- Mus musculus*: 1, 166, 256, 276

- Ocelot: 306
- Olingo: 306
- Panda: 306
- Puma: 306
- Racoon: 306
- Association, mitotic, of nucleolar organizing chromosomes in the mouse: 276
- Ataxia telangiectasia, cytogenetic investigations in families with: 338
 - , sister chromatid exchange in: 17
- Banding patterns of *Akodon arviculoides*, *Akodon* sp., and their hybrids: 388
 - — — gibbon chromosomes: 81, 92
 - — — procyonid, viverrid, and felid chromosomes: 306
- Centric heterochromatin, human chromosome, attraction between: 66
- Centromeric and telomeric staining of cattle chromosomes: 332
 - inactivation, possibility of: 41
- CHO cells, replica plating method for: 372
- Chromosomal banding patterns in *Akodon arviculoides*, *Akodon* sp., and their hybrids: 388
 - — — in procyonids, viverrids, and felids, interrelationships of: 306
- Chromosomally unbalanced gametes, fate of: 1
- Chromosome 1, assignment of the gene for UMPK to: 146
 - , localization of 5S RNA genes on: 50
 - , regional mapping of: 129
 - 15, assignment of the genes for mannose phosphate isomerase and pyruvate kinase to: 299
 - polymorphism in a human newborn population: 239
- Chromosomes from mouse peripheral blood, preparation of: 166
- , Indian muntjac, Giemsa banding of: 153
- Cytochemical measurements in a diploid-tetraploid species pair of hyloid frogs: 186
- Cytogenetic investigations in families with ataxia telangiectasia: 338
- DNA replication patterns of human chromosomes as revealed by Giemsa staining: 177
 - , sites of early replicating, Giemsa staining of: 363
- Embryonic development, murine, fate of chromosomally unbalanced gametes in: 1
- Giemsa banding of human prophase chromosomes: 112
 - — — Indian muntjac chromosomes: 153
 - — pattern of the canine karyotype: 380
 - staining of sites replicating DNA early: 363
 - — technique for revealing DNA replication patterns: 177
- Heterochromatin, centric, human chromosome, attraction between: 66
- Karyotype, canine, Giemsa banding pattern of the: 380
- Karyotypes of gibbons: 81, 92

- Mannose phosphate isomerase, syntenry of the genes for pyruvate kinase and: 299
- Meiotic disjunction in T(14;15)6Ca heterozygotes: 1
- metaphase, second, in male mice: 256
- Mosaicism, haploid-triploid, and triploidy among chick embryos: 138
- , variegated translocation, in human skin fibroblast cultures: 282
- Newborn population, human, chromosome polymorphism in a: 239
- Nucleolar organizing chromosomes, murine, mitotic association patterns of: 276
- PARIS CONFERENCE (1971), SUPPLEMENT (1975): see page 202 for detailed contents
- Preparing chromosomes from peripheral blood in the mouse, a method for: 166
- Prophase chromosomes, human, mapping G-bands on: 112
- Pyruvate kinase, syntenry of the genes for mannose phosphate isomerase and: 299
- Replica plating method for CHO cells using nylon cloth: 372
- RN5S, localization on human chromosome 1: 50
- Robertsonian (21q22q) translocation, familial transmission of a: 103
- Sister chromatid exchange in human chromosomes from normal individuals and patients with ataxia telangiectasia: 17
- Somatic cell genetics resource for research in aging: 30
- Telomeric staining of cattle chromosomes, centromeric and: 332
- Translocation, Robertsonian (21q22q), familial transmission of a: 103
- , total chromosome and whole arm, proposed nomenclature system for: 41
- Triploidy and haploid-triploid mosaicism among chick embryos: 138
- Uridine monophosphate kinase, assignment to chromosome 1 of the gene for: 146
- Variegated translocation mosaicism in human skin fibroblast cultures: 282
- X chromosome, regional mapping of: 129

Human Genetic Mutant Cell Repository Index

Volume 15 (1975)

- A double translocation culture t(5;15)t(9;11) with partial deletion of the short arm of chromosome 5 (GM-344): 400
- A (13) terminal deletion, 46 chromosomes (GM-250): 57
- A (4;11) translocation, balanced, 49,XXXXY karyotype (GM-157): 127
- A (4;15) translocation, balanced, 46 chromosomes (GM-624): 124
- A (6;18) translocation, 46 chromosomes (GM-610): 402
- A (13;22) Robertsonian translocation, 45 chromosomes (GM-392): 55
- A (13;22) translocation, 46 chromosomes (GM-627): 406
- A (Y;15) translocation, 46 chromosomes (GM-118): 408
- A ring 9 chromosome (GM-166): 122
- An (X;3) translocation, balanced, 46 chromosomes (GM-194): 404
- β -Glucuronidase deficiency mucopolysaccharidosis (GM-121): 410
- Fucosidosis type 2 (GM-289 to GM-292): 195
- Galactosemia (GM-52 and GM-53): 198
- Homozygous familial hypercholesterolemia (*receptor-negative type*) (GM-361): 357

Index

No. 1

OSHIMURA, M. and TAKAGI, N.: Meiotic disjunction in T (14;15)6Ca heterozygotes and fate of chromosomally unbalanced gametes in embryonic development	1
GALLOWAY, S.M. and EVANS, H.J.: Sister chromatid exchange in human chromosomes from normal individuals and patients with ataxia telangiectasia .	17
MURPHY, D.G. and NICHOLS, W.W.: Somatic cell genetics resource for research in aging. The National Institutes of Health plan for an expanded program in cellular aging	30
HSU, T.C.; PATHAK, S., and CHEN, T.R.: The possibility of latent centromeres and a proposed nomenclature system for total chromosome and whole arm translocations	41
ATWOOD, K.C.; YU, M.T.; JOHNSON, L.D., and HENDERSON, A.S.: The site of 5S RNA genes in human chromosome 1	50
 Human Genetic Mutant Cell Repository	
ALFI, O.; MILLER, R.C.; GREENE, A.E., and CORIELL, L.L.: A (13;22) Robertsonian translocation, 45 chromosomes. Repository identification No. GM-392	55
ARONSON, M.; ZACKAI, E.; MELLMAN, W.; MILLER, R.C.; GREENE, A.E., and CORIELL, L.L.: A (13) terminal deletion, 46 chromosomes. Repository identification No. GM-250	57
Book reviews	59

No. 2

HAMERTON, J.L.: Human cytogenetic registries	65
SCHMID, M.; VOGEL, W., and KRONE, W.: Attraction between centric heterochromatin of human chromosomes	66

DUTRILLAUX, B.; RETHORÉ, M.O.; AURIAS, A. et GOUSTARD, M.: Analyse du caryotype de deux espèces de Gibbons (<i>Hylobates lar</i> et <i>H. concolor</i>) par différentes techniques de marquage (Analysis of the karyotype of two species of gibbons [<i>Hylobates lar</i> and <i>H. concolor</i>] by various banding techniques)	81
TANTRAVAHU, R.; DEV, V.G.; FIRSCHEIN, I.L.; MILLER, D.A., and MILLER, O.J.: Karyotype of the gibbons <i>Hylobates lar</i> and <i>H. moloch</i> : inversion in chromosome 7	92
BUCKTON, K.E.; NEWTON, M.S.; LAUDER, I.J.; MEY, R. DE; ELLIOT, D., and SKINNER, R.: Familial transmission of a (21q22q) translocation	103
BIGGER, T.R.L. and SAVAGE, J.R.K.: Mapping G-bands on human prophase chromosomes	112

Human Genetic Mutant Cell Repository

KISTENMACHER, M.L.; PUNNETT, H.H.; ARONSON, M.; MILLER, R.C.; GREENE, A.E., and CORIELL, L.L.: A ring 9 chromosome. Repository identification No. GM-166	122
KOHN, G.; COHEN, M.M.; ARONSON, M.; MILLER, R.C.; GREENE, A.E., and CORIELL, L.L.: A (4;15) translocation, balanced, 46 chromosomes. Repository identification No. GM-624	124
Errata	126

No. 3

WIT, J. DE; BOOTSMA, D.; PEARSON, P.L., and WESTERVELD, A.: Regional mapping of the human No. 1 and X chromosome in interspecific cell hybrids using an X/1 translocation	129
ZARTMAN, D.L. and SMITH, A.L.: Triploidy and haploid-triploid mosaicism among chick embryos (<i>Gallus domesticus</i>)	138
SATLIN, A.; KUCHERLAPATI, R., and RUDDLE, F.H.: Assignment of the gene for human uridine monophosphate kinase to chromosome 1 using somatic cell hybrid clone panels	146
SMITH, T.F.; GRUNWALD, M.; ARTWICH, R., and HILL, H.Z.: A simple statistical analysis of Indian muntjac Giemsa band patterns	153
TRIMAN, K.L.; DAVISSON, M.T., and RODERICK, T.H.: A method for preparing chromosomes from peripheral blood in the mouse	166
EPPLEN, J.T.; SIEBERS, J.-W., and VOGEL, W.: DNA replication patterns of human chromosomes from fibroblasts and amniotic fluid cells revealed by a Giemsa staining technique	177
BACHMANN, K. and BOGART, J.P.: Comparative cytochemical measurements in the diploid-tetraploid species pair of hyloid frogs <i>Hyla chrysoscelis</i> and <i>H. versicolor</i>	186

Human Genetic Mutant Cell Repository

BERATIS, N.G.; KOUSSEFF, B.G.; HIRSCHHORN, K.; GREENE, A.E., and CORIELL, L.L.: Fucosidosis type 2. Repository identification Nos. GM-289 to GM-292	195
---	-----

- MELLMAN, W.J.; TEDESCO, T.A.; GREENE, A.E., and CORIELL, L.L.: Galactosemia. Repository identification Nos. GM-52 and GM-53 198

Book review 200

No. 4

- Paris Conference (1971), Supplement (1975): Standardization in human cytogenetics 201
- MÜLLER, H.J.; KLINGER, H.P., and GLASSER, M.: Chromosome polymorphism in a human newborn population. II. Potentials of polymorphic chromosome variants for characterizing the idiogram of an individual 239
- BEATTY, R.A.; LIM, M.-C., and COULTER, V.J.: A quantitative study of the second meiotic metaphase in male mice (*Mus musculus*) 256
- SPENCE, M.A. and LUTHARDT, F.W.: Mitotic association patterns of nucleolar organizing chromosomes in the mouse 276

No. 5

- Data on cytogenetic registers 281
- HOEHN, H.; BRYANT, E.M.; AU, K.; NORWOOD, T.H.; BOMAN, H., and MARTIN, G.M.: Variegated translocation mosaicism in human skin fibroblast cultures 282
- CHERN, C.J. and CROCE, C.M.: Confirmation of the synteny of the human genes for mannose phosphate isomerase and pyruvate kinase and of their assignment to chromosome 15 299
- WURSTER-HILL, D.H. and GRAY, C.W.: The interrelationships of chromosome banding patterns in procyonids, viverrids, and felids 306
- DIAMOND, J.R.; DUNN, H.O., and HOWELL, W.M.: Centromeric and telomeric standing regions in the chromosomes of cattle (*Bos taurus*) 332
- COHEN, M.M.; SHAHAM, M.; DAGAN, J.; SHMUELI, E., and KOHN, G.: Cytogenetic investigations in families with ataxia-telangiectasia 338

Human Genetic Mutant Cell Repository

- GOLDSTEIN, J.L.; BROWN, M.S.; GREENE, A.E., and CORIELL, L.L.: Homozygous familial hypercholesterolemia (*receptor-negative* type). Repository identification No. GM-361 357

Book review

- DAVIDSON, R.L. and DE LA CRUX, F., eds.: Somatic cell hybridization (F. Gianelli) 360

No. 6

- Standardization in human cytogenetics 361
- KIM, MY. A.; JOHANNSMANN, R., and GRZESCHIK, K.-H.: Giemsa staining of the sites replicating DNA early in human lymphocyte chromosomes 363

STAMATO, T.D. and KARIG HOHMANN, L.: A replica plating method for CHO cells using nylon cloth	372
SELDEN, J.R.; MOORHEAD, P.S.; OEHLERT, M.L., and PATTERSON, D.F.: The Giemsa banding pattern of the canine karyotype	380
YONENAGA, Y.; KASAHARA, S.; ALMEIDA, E.J.C., and PERACCHI, A.L.: Chromosomal banding patterns in <i>Akodon arviculoides</i> (2n=14), <i>Akodon</i> sp. (2n=24 and 25), and two male hybrids with 19 chromosomes	388

Human Genetic Mutant Cell Repository

JACKSON, L.; BARR, M.; ARONSON, M.; GREENE, A.E., and CORIELL, L.L.: A double translocation culture t(5;15)(t9;11) with partial deletion of the short arm of chromosome 5. Repository identification No. GM-344	400
KLINGER, H.P.; ARONSON, M.M.; GREENE, A.E., and CORIELL, L.L.: A (6;18) translocation, 46 chromosomes. Repository identification No. GM-610	402
DE LA CHAPELLE, A.; SCHRÖDER, J.; KLINGER, H.P.; ARONSON, M.M.; MILLER, R.C.; GREENE, A.E., and CORIELL, L.L.: An (X;3) translocation, balanced, 46 chromosomes. Repository identification No. GM-194	404
KIM, H.J.; HIRSCHORN, K.; HSU, L.Y.F.; ARONSON, M.M.; GREENE, A.E., and CORIELL, L.L.: A (13;22) translocation, 46 chromosomes. Repository identification No. GM-627	406
HAHNENMANN, N.; MILLER, R.C.; GREENE, A.E., and CORIELL, L.L.: A (Y;15) translocation, 46 chromosomes. Repository identification No. GM-118	408
SLY, W.S.; GREENE, A.E., and CORIELL, L.L.: β -Glucuronidase deficiency mucopolysaccharidosis. Repository identification No. GM-121	410
